

Dear Parents,

The Manhattan Beach Athletic Foundation is happy to bring an exciting after school enrichment program to Pennekamp students beginning this fall - the **PACE** Program. (Pennekamp After Class Enrichment Program.) As many of you may know, the Manhattan Beach Athletic Foundation is a tax-exempt organization that partners with the Manhattan Beach Unified School District in a variety of education, athletic, and physical education programs.

MBAF programs are currently offered on site at our four other elementary schools with a wide variety of classes taught by highly qualified and talented instructors, both during the school year and at our summer program, Camp VIP. These programs have a very successful track record in meeting the needs of Manhattan Beach families. Your students will be bringing home the fall PACE enrollment packet on Tuesday, September 8, so please check backpacks. Briefly, here is information that may be helpful at this point.

- Enrollment will begin online (preferred) or by hard copy on Wednesday, September 9, at [www.psmannhattan.org](http://www.psmannhattan.org)
- The eight week fall session will begin on October 5, with classes being offered Monday through Thursday afternoons for students in all grades.
- Mid day "Kinder only" classes will be offered certain days for both morning and afternoon kindergartners. These classes may begin a week later than the afternoon classes. All dates will be specified in the enrollment packet.
- We are fortunate to have two very experienced individuals heading up the on site supervision. Joyce Santiago, on site Program Coordinator, has years of participation in many aspects of school programs. Pennekamp's very own Terri Cummings, will work closely with Joyce onsite as Program Assistant to provide continuous supervision of students from the end of the school day until the conclusion of enrichment activities.
- Joyce and Terri will coordinate all classes, pick ups, etc. with EDP on a daily basis.

For any questions in advance of the enrollment period, please feel free to contact Nancy Rosenburg, MBAF Program Director, at 376-6115 or [nsrosenb@aol.com](mailto:nsrosenb@aol.com)
