

Dear Pennekamp Parents,

Thank you for your wonderful support during the 2006-2007 and 2007-2008 school years. We are so very grateful for your financial support and also for the more than 56,000 volunteer hours you logged. Together, we accomplished great things. You have made possible many brand new programs including the Science Lab, Go Green environmental program, Growing Great garden lessons, vocal music, music program for non-instrumental students, Halloween Closet, School Supplies and the Science Fair. You have helped enhance the safety and security of Pennekamp through Pennekamp's adult safety patrol, new signage, new lighting and shade. You have moved the Pennekamp campus into the next century by supporting the installation of amplification systems campus-wide and online registration and cafeteria point of sale systems, both of which will be up and running by next school year. You have contributed to the installation of a new outdoor amphitheatre on campus and have championed new campus to home online communication. Equally significant, you have continued to grow the community that is Pennekamp, creating new institutions such as Dragon Movie Night and the MB Pumpkin races and continuing to support great events including Author's Week, Artists-in-Residence, Friday Ice Cream (despite some changes to conform to the District's new wellness policy), Book Fair, Jog-a-thon, Cultural Arts Assemblies, Halloween parade, Young At Art and the Talent Show. If your child has come home from school talking about any of these programs, you will know it was funded and built by you as part of the PTA.

Thank you for your participation in the PTA and may you have a very restful and enjoyable summer.

Sincerely yours,

Cathey Graves & Denise Ellis  
PTA Co-Presidents
