

Attention 4th and 5th Graders

Pennekamp Science Club is Starting:

Come check out our new Science Club beginning next Monday, April 21st and continuing every Monday through May 26.

Join us in the Science Lab during Lunch recess for a “hands on” experiment. The experiments are designed to take about 20 minutes and are sure to be a blast (maybe even a real blast)!

We can even answer questions you might have about your own science projects.

Be there if you dare.
